

**OFFSIDE — Diagram 1**  
**Pass to a Teammate**

A passes the ball to B. B is offside because he is in front of A and is nearer to his opponents' goal line than at least two opponents when the ball was passed by A.

**OFFSIDE — Diagram 2**

**Pass to a Teammate**

A plays the ball forward to B who is level with the second last defender. B is not offside since, at the moment the ball was played by A, he was not nearer to his opponents' goal line than at least two opponents.

**OFFSIDE — Diagram 3****Pass to a Teammate**

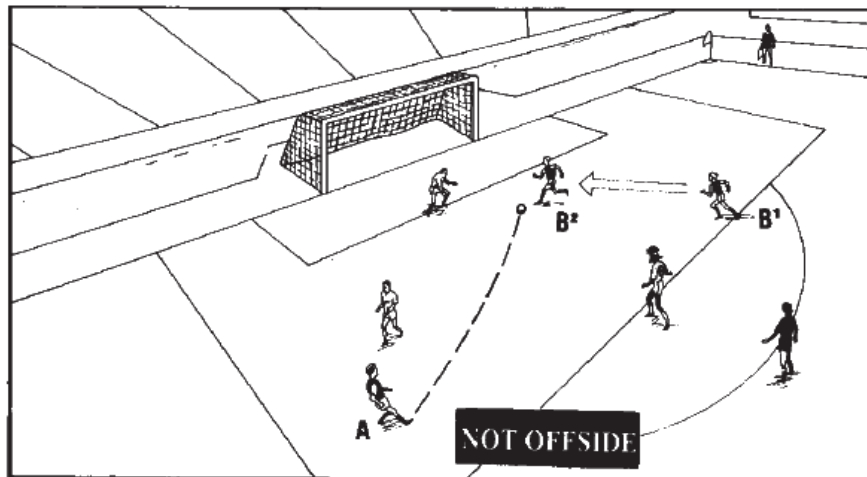

A plays the ball forward to B who is level with the second last defender. B is not offside since, at the moment the ball was played by A, he was not nearer to his opponents' goal line than at least two of his opponents. Player C, lying injured outside the penalty area, is in an offside position but would not be penalized since he is not involved in active play.

**OFFSIDE — Diagram 4****Pass to a Teammate**

A plays the ball to B who is level with the last two opponents. B is not offside since, at the moment the ball was played by A, he was not nearer his opponents' goal line than at least two of his opponents.

**OFFSIDE — Diagram 5****Pass to a Teammate**

A crosses the ball forward from outside the penalty area. B runs from Position 1 and collects the ball as it lands at Position 2. B is offside since, at the moment the ball was played by A, he was nearer to his opponents' goal line than at least two of his opponents and gained an advantage by being in active play.

**OFFSIDE — Diagram 6****Pass to a Teammate**

A passes the ball to B who runs from Position 1 to Position 2 to play it. B is not offside because at the moment the ball was played by A, he was not in an offside position since he was not in front of the ball and was not nearer to his opponents' goal line than at least two of his opponents.

**OFFSIDE — Diagram 7****Interpassing with a Teammate**

A plays the ball to B from Position 1 and runs forward to receive the return pass. B plays the ball to A who is now in Position 2. A is offside since at the moment the ball was played forward to him by B, he was nearer his opponents' goal line than at least two of his opponents and gained an advantage by being in active play.

**OFFSIDE — Diagram 8****Interfering with an Opponent**

A shoots for goal and the ball enters the net. B is standing in front of the goalkeeper. The goal would not be allowed since B, who is in an offside position, is involved in active play and is interfering with an opponent.

### OFFSIDE — Diagram 9

#### Shot at Goal

A shoots for goal and scores. Although B is in an offside position, he is not involved in active play and the goal would be allowed.

### OFFSIDE — Diagram 10

#### Ball Rebounding from Goal Posts or Crossbar

A shoots for goal and the ball rebounds from the post to B who kicks the ball into goal. The goal would be disallowed since B, who was in an offside position when the ball was last played by A, was in active play and gained an advantage by being in that position.

### OFFSIDE — Diagram 11

#### Shot Rebounds from Goalkeeper

A shoots the ball at goal and the ball rebounds from the goalkeeper to Player B. The goal is disallowed since B, who was in an offside position when the ball was last played by A, was in active play and gained an advantage by being in that position.

### OFFSIDE — Diagram 12

#### Not Interfering with an Opponent

A shoots for goal and scores. Although B is lying injured in an offside position, he is not involved in active play. The goal would be allowed.

**OFFSIDE — Diagram 13****Interfering with an Opponent**

A shoots for goal and the ball enters the net. B, who is lying injured in the goal area and in the path of the ball, would be penalized for offside. By his presence, however accidental, he is involved in the active play and is interfering with an opponent.

**OFFSIDE — Diagram 14****Corner Kick**

A takes a corner kick and the ball goes to B. B shoots for goal and the ball is touched by C and enters the goal. The goal is not permitted since C was in front of the ball and there were not at least two opponents between him and the goal line when it was last played by B.

**OFFSIDE — Diagram 15****Corner Kick**

A corner kick is taken by A and the ball goes to B who scores. Although B has only one opponent between him and the goal line, the goal is allowed since a player cannot be offside if he receives the ball directly from a corner kick.

**OFFSIDE — Diagram 16****Throw-in**

A throws the ball to B who scores. The goal is allowed. Although B is in front of the ball and there is only one opponent between him and the goal line, he is not offside because a player cannot be offside if he receives the ball directly from a throw-in.

**OFFSIDE — Diagram 17****Pass to a Teammate**

B plays the ball ahead of A who is in his own half. Although there are not at least two opponents nearer their own goal line at the moment when B played the ball, A is not offside since a player cannot be offside in his own half of the field of play.

**OFFSIDE — Diagram 18****Active Play**

The ball is intercepted by player B, a teammate of the attacking player. It is transferred to another teammate, player C, on the wing. Although the attacking player A is in an offside position, he would not be penalized since he is not involved in active play.
